MEMORANDUM FOR: Executive Officer-Deputy Director for Management
and Services

SUBJECT : Office of Training: Tasks and Actions

REFERENCE : Memorandum of 14 May 1973; same subject

1. As indicated in referent memorandum, it had been my intention to report on 27 July on OTR's plans for a revised handling of the Intelligence Process in our curriculum. Further examination of the subject indicates that several months of intensive examination will be necessary before a definitive position can be stated. We have, however, prepared the attached study which sets forth the manner in which the Intelligence Process is presently being handled. The Curriculum Council has reviewed the study and agrees that new approaches will require considerable time before their validity can be tested.

2. OTR's method of studying how best to overhaul our training in the Intelligence Process is a coordinated effort of the Intelligence Studies Branch of the Intelligence Institute, the Functional Training Division and the Plans and Development Staff. The Special Assistant for Operations Training will also be consulted. Reports of progress will be made as appropriate.
